

Pricing Update – Effective 1st May 2026

Why this change is happening

To continue delivering the quality and reliability you expect, we are introducing a small and necessary price adjustment. Since launching **Cover Caps in 2021**, we have held our pricing steady, despite the general increases across the UK economy:

- Inflation peaked at ~11% in 2022
- Cumulative inflation has reached approximately 20–25%
- Ongoing increases in energy, transport, and raw materials

This adjustment allows us to keep pace with rising costs while continuing to invest and grow.
